To Whom It May Concern:

I am pleased to offer a letter of recommendation for Electronics & Engineering PTE LTD(E&E). E&E was a direct contractor to Rock Productions on the Star Performing Arts Centre(Also known as the CCRC project). This was a competitive award install and integration project for Rock Productions and E&E was awarded the following works coordination and installation of all low voltage audio-visual infrastructure cabling, the integration, supply and installation of sound and communications equipment and the coordination with other production installers (lighting and broadcast).

The Star Performing Arts Centre (Starpac) is a multi-venue performing arts space that was designed to host multiple types of events – from seminars to concerts to musicals. It is part of a mixed development project called that Star that consist of Star Vista – shopping mall and Starpac. Starpac has a 5000 seat theatre, 770 seat ballroom, 300 seat outdoor amphitheatre and 8 meeting rooms ranging from 50-120 seats. The project involved many different direct contracts on the technical production aspect and 1 main contractor with their subcontractors. Thus it was imperative that close coordination and effective communication were required by all parties involved to ensure that all plans and design by the consultants and owners are built accordingly. E&E planned, organized and controlled all of their work properly. E&E's office and Project Managers executed their work with the utmost professionalism throughout the project. E&E offered valuable advice on construction aspects based on their experience working on other large projects.

In the past 1 year Starpac has hosted many award winning artist such as David Foster, Norah Jones and Tony Bennett. Furthermore Starpac has also done various events such the Final One live broadcast and the screening of Lord the Rings with live orchestra. And the infrastructure has met all the requirements. Visiting engineers and consultants have commented on the well designed stageboxes and impeccable installation. Starpac welcomes the opportunity to recommend or work with E&E on future projects. They take pride in their work.

If you have any questions or need additional information please contact us at your convenience.

Sincerely,

Daniel Loh
Technical Director
The Star Performing Arts Centre
