To whom it may concern

Our relationship with Electronics & Engineering Pte Ltd goes back prior to the opening of the Esplanade Theatres on the Bay, where I was involved with them during the installation and commissioning of the entire sound system project.

Electronics and Engineering Pte Ltd went beyond their normal scope of works and treated this project as something personal to them, they would never hesitate to come up with, and provide alternatives for the better of the Project.

Once the hand over was completed Electronics & Engineering Pte Ltd provided a member of their staff on standby in order to handle first hand any requirement made by the Esplanade Sound Department, something that still exists to this day. They have continuously come to our rescue when times are needed and generally help wherever possible, no matter what.

They have since our opening been our Maintenance Contractor for the Esplanade Theatre on the Bay Sound Department and our sound systems.

Over the past Eleven years, they have been responsible for several major contracts to the Esplanade Sound Department, be it the providing of equipment or 'turnkey' projects involving many third party contractors.

They have always seen the Esplanade Theatres on the Bay as a Preferential Client and we in turn have seen Electronics & Engineering Pte Ltd as our Preferred Contractor.

This I believe is their method of operation and I know is how they serve all their clients.

Yours truly

Robin Shuttleworth
