E&E Celebrates 65th Anniversary, Opens New Warehouse & Logistics Centre

SINGAPORE: ELECTRONICS & ENGINEERING PTE LTD (E&E) celebrates its 65th Anniversary in conjunction with the opening of their new Warehouse and Logistics Centre located at No. 9 Tuas South Street 10 Singapore 636942.

Over 3,000 square metres of land space was acquired from Jurong Town Corporation (JTC) last year for the warehouse & logistics centre which was purpose-built from ground up. The two-storey building comprises four separate 7-metre high dehumidified clean-air

warehouse spaces which are served by a 5-tonne capacity goods lift. The loading bay is equipped with dock levellers and can accommodate four container trucks.

The building also houses the engineering workshop arm, Eng Kong Engineering Works, which is equipped with a 3-tonne travelling hoist. There are also two levels of office space and a multi-purpose area.

"We are very pleased to be celebrating another milestone with the opening of our new Warehouse & Logistics Centre

which will facilitate our expansion plans for our business in the region," commented Gary Goh, Deputy Managing Director, Electronics & Engineering Pte Ltd.

Held in January, the official opening of the warehouse and logistics centre saw the attendance of E&E's esteemed clients, staff and valued partners in the proAV industry.
